Comments

First of all I would like to thank Mr. & Mrs. Palwe for providing such a good platform for the people who wish to immigrate. You just have to step in & they take care of everything. And about the teaching method. There is in depth study of various teaching methods. There are many study material s in the class. Meghana ma'am & Archana ma'am are always there, even for any minute problem. Tips given by them are useful for future life. Both of them are really concerned about improving the skills. Now I have a different perspective towards everything.
